Skilled in Selenium WebDriver, Java, TestNG, Cypress, Playwright, Postman, Jira, JMeter, REST APIs, SDLC, STLC, and Agile/Scrum. Currently preparing for ISTQB CTFL certification.

TECHNICAL SKILLS

Testing:	Manual Testing, Test Cases, Functional, Regression, Smoke, Negative Testing, Bug Reporting
Automation:	Selenium WebDriver, Java, TestNG, Cypress, Playwright, TypeScript, JavaScript
API / Performance:	Postman, REST API Testing, JMeter
Tools / Data:	Jira, Git, GitHub, SQL, MySQL, JDBC
Web:	HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB
Methodologies:	SDLC, STLC, Agile/Scrum

PROJECTS

Automation Test Store — Playwright Automation | 2026

- Automated registration and e-commerce flows using Playwright and TypeScript with happy-path and negative scenarios.
- Handled dynamic country/state selection, validation messages, assertions, and reliable test data.

MyStoreTest — QA Automation & API Testing | Mar–Apr 2026

- Designed and executed manual tests and automated e-commerce workflows using Selenium WebDriver, Java, and TestNG.
- Performed REST API testing with Postman covering authentication, user creation, negative scenarios, and response validation.

Almosafer Automation Testing | Mar 2026

- Automated flight and hotel search scenarios using Selenium WebDriver, Java, and TestNG.
- Tested dynamic elements, pop-ups, autocomplete fields, date pickers, dropdowns, assertions, and dynamic test data.

CodenBox Automation Testing | Mar 2026

- Automated UI scenarios covering alerts, tabs, windows, iframes, checkboxes, radio buttons, mouse actions, and JDBC data-driven testing.

EXPERIENCE

Full Stack Development Trainee — Web 7 Company, Amman | Mar–Jun 2023

- Developed web functionality using HTML, CSS, and JavaScript while participating in development cycles, manual testing, and software quality activities.
